

Dr Elisabeth HERVIER

Dr. Elisabeth Hervier, founder and general manager of IDL since 1985, has years of experience in partnering with the pharmaceutical industry. She participated in numerous licensing negotiations between European and multi-national companies.

Dr. Hervier is often retained for her expertise in international regulatory affairs. She was the director of the Pharmaceutical and International Affairs division of "Droit & Pharmacie" a well regarded French consultancy. She created IDRAC, the first international drug regulation database which is now marketed by IMS Health.

A frequent speaker in international conferences such as the BIO conference and professional seminars, Dr Hervier is also a member of the group of experts supporting French governmental agencies.

Since 1998, Dr Hervier has been the President of the International Committee of the Paris - Ile de France Chamber of Commerce and Industry (C.C.I.P.).
